Case 2 – Tech Blog Website

Using any test automation framework and preferably Java programming language (except record/play tools), please do following:

1- Go to https://techcrunch.com/
2- For "The Latest News" list, verify followings;
    a. each news has an author
    b. each news has an image

3- Click one of news from "The Latest News" list to reach the full content and verify followings;
    a. the browser title is the same with the news title
    b. the links within the news content

Please share your **private** Bitbucket repository URL (by giving access to Bitbucket user: **mmeareview@gmail.com**)
